CHILD PROTECTION POLICY FOR ST. HELEN'S CATHOLIC PRIMARY SCHOOL

1. Introduction

Schools and their staff form part of the wider safeguarding system for children. Everyone who comes into contact with children and their families and carers has a role to play in safeguarding children. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

(Keeping Children Safe in Education – DfE, 2023)

This Child Protection policy is for all staff, parents, governors, volunteers and the wider school community. It forms part of the safeguarding arrangements for our school and should be read in conjunction with the following:

- Keeping Children Safe in Education (DfE, 2023)
- the Behaviour policy;
- the Staff Code of Conduct;
- the safeguarding response to children missing from education
- the role of the designated safeguarding lead (Annex C of KCSIE)

Safeguarding and promoting the welfare of children (*everyone under the age of 18*) is defined in Keeping Children Safe in Education as:

- Protecting children from maltreatment
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

Our school has a whole-school approach to safeguarding, which ensures that keeping children safe is at the heart of everything we do and underpins all systems, processes and policies. It is important that our values are understood and shared by all children, staff, parents / carers, governors and the wider school community. Only by working in partnership, can we truly keep children safe.

2. Statutory framework

There is government guidance set out in Working Together (DfE, 2018) on how agencies must work in partnership to keep children safe. This guidance places a shared and equal duty on three Safeguarding Partners (the Local Authority, Police and Health) to work together to safeguard and promote the welfare of all children in their area under multi-agency safeguarding arrangements. These arrangements sit under the Southend Safeguarding Children's Partnership <http://www.safeguardingsouthend.co.uk>. In Southend, the statutory partners are Southend on Sea City Council, Essex Police and the Integrated Care Board for mid and south Essex (MSE ICB).

Section 175 of the Education Act 2002 places a statutory responsibility on the governing body to have policies and procedures in place that safeguard and promote the welfare of children who are pupils of the school.

In Southend, all professionals must work in accordance with the SET Procedures.

Our school also works in accordance with the following legislation and guidance (*this is not an exhaustive list*):

Keeping Children Safe in Education (DfE, 2023)

Working Together (DfE, 2018)

Education Act (2002)

Counter-Terrorism and Security Act (HMG, 2015)

Serious Crime Act 2015 (Home Office, 2015)

Children and Social Work Act (2017)

Children Missing Education - statutory guidance for local authorities (DfE, 2016)

Sexual Offences Act (2003)

Education (Pupil Registration) Regulations 2006

Information sharing advice for safeguarding practitioners (HMG, 2018)

Data Protection Act (2018)

What to do if you're worried a child is being abused (HMG, 2015)

Children Act (1989)

Children Act (2004)

Preventing and Tackling Bullying (DfE, 2017)

Female Genital Mutilation Act 2003 (S. 74 - Serious Crime Act 2015)

Preventing youth violence and gang involvement (Home Office, 2015)

Criminal Exploitation of children and vulnerable adult - county lines guidance (Home Office, 2018)

Teaching on-line safety in schools (DfE, 2019)

Behaviour in Schools (DfE 2022)

Suspension and permanent exclusion in schools, academies and PRUs, including pupil movement (DfE 2022)

Searching, screening and confiscation (DfE 2022)

Filtering and Monitoring Standards (DfE 2023)

3. Roles and responsibilities

All adults working with or on behalf of children have a responsibility to protect them and to provide a safe environment in which they can learn and achieve their full potential. However, there are key people within schools, the Local Authority and other agencies who have specific responsibilities under child protection procedures. The names of those in our school with these specific responsibilities (the designated safeguarding lead and deputy designated safeguarding leads) are shown on the cover sheet of this document. However, we are clear that safeguarding is everyone's responsibility and that everyone who comes into contact with children has a role to play.

The Local Governing Committee

The Local Governing Committee ensures that the policies, procedures and training in our school are effective and comply with the law at all times. It ensures that all required policies relating to safeguarding are in place, that the child protection policy reflects statutory and local guidance and that it is reviewed at least annually.

The governor for safeguarding arrangements is named on the front cover of this document. This governor takes strategic responsibility at governing body level for safeguarding arrangements in our school. The governing body ensures there is a named designated safeguarding lead and 2 deputy safeguarding leads in place (also named on the front cover).

The Local Governing Committee ensures the school contributes to inter-agency working, in line with statutory and local guidance. It ensures that information is shared and stored appropriately and in accordance with statutory requirements.

The Local Governing Committee ensures that adults in our school who work with children undergo safeguarding and child protection training at induction as appropriate and that it is regularly updated. All staff members receive regular safeguarding and child protection updates, at least annually, to provide them with the relevant skills and knowledge to keep our children safe.

The Local Governing Committee ensures our pupils are taught about safeguarding (including online safety) through teaching and learning opportunities as part of a broad and balanced curriculum. We work in accordance with government regulations which make the subjects of Relationships Education (for primary age pupils) and Relationships and Sex Education (for secondary age pupils) and Health Education (for all pupils in state-funded schools) mandatory.

The Local Governing Committee and school leadership team are responsible for.

- ensuring we have in place safer recruitment procedures that help to deter, reject or identify people who might abuse children.
- ensuring we meet statutory responsibilities to check adults working with children and have recruitment and selection procedures in place (see the school's 'Safer Recruitment' policy for further information).
- ensuring volunteers are appropriately supervised in school.
- Online safety (including strategic oversight of filtering and monitoring systems to support this).

The Headteacher

The Teachers' Standards 2012 state that teachers (which includes headteachers) should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. Our Headteacher works in accordance with all statutory

requirements for safeguarding and is responsible for ensuring that safeguarding policies and procedures adopted by the governing body are followed by all staff.

The Designated Safeguarding Lead (and Deputies)

The designated safeguarding lead in school has ultimate lead responsibility for safeguarding and child protection. Their role includes managing child protection referrals, working with other agencies, ensuring all staff are appropriately trained, leading on online safety (including filtering and monitoring standards) and raising awareness of all safeguarding and child protection policies and procedures. They ensure that everyone in school (including temporary staff, volunteers and contractors) is aware of these procedures and that they are followed at all times. They act as a source of advice and support for other staff (on child protection matters) and ensure that timely referrals to Southend Children's Single Point of Contact (C-SPOC) and/or the Police are made in a timely way and in accordance with current SET procedures. They work with the local authority and other agencies as required and ensure that information is shared appropriately.

The Deputy Designated Safeguarding Leads are trained to the same standard as the Designated Safeguarding Lead. If for any reason the designated safeguarding lead is unavailable, the deputy designated safeguarding leads will act in their absence.

All school staff

Everyone in our school has a responsibility to provide a safe learning environment where our children can learn. All staff are aware of the types of abuse safeguarding issues that can put children at risk of harm, so we are able to identify children who may be in need of help or protection. We understand that behaviours linked to issues such as drug taking and/or alcohol misuse, missing education and consensual/non-consensual sharing of nudes and semi-nudes images can be signs that children are at risk. In addition, we recognise that any child may benefit from additional help and all staff members are aware of the local early help process and our role in it.

All staff members are aware of and follow school safeguarding processes (as set out in this policy) and are aware of how to make a referral to Social Care, if there is a need to do so. Staff understand that, if they have any concerns about a child's welfare, they must act on them immediately and speak with the designated safeguarding lead (or a deputy) – we do not assume that others have taken action.

Our staff understand that children may not always feel able or know how to tell someone that they are being abused. This maybe because they are embarrassed, scared or do not recognise they are experiencing abuse, either at home or out in the community. We understand there are many factors which may impact on our children's welfare and safety and we also understand safeguarding in the wider context (contextual safeguarding). We recognise that abuse, neglect and safeguarding issues are rarely occur in isolation and that, in most cases, multiple issues will overlap.

Our staff will always reassure children who report abuse that they are taken seriously and that they will be supported and kept safe. We will never make a child feel ashamed for reporting abuse, nor make them feel they are causing a problem.

4. Types of abuse / specific safeguarding issues

Keeping Children Safe in Education describes abuse as ‘a form of maltreatment of a child’. It sets out that:

“Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or another child or children”

The guidance refers to four main categories of abuse:

- Physical:** a form of abuse causing physical harm to a child – this includes where an adult fabricates or deliberately induces illness in a child
- Emotional:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child’s emotional development
- Sexual:** forcing or enticing a child to take part in sexual activities (through actual physical or online contact)
- Neglect:** the persistent failure to meet a child’s basic physical and/or psychological needs, likely to result in the serious impairment of the child’s health or development

In addition, Annex B of Keeping Children Safe in Education contains important information about specific forms of abuse and safeguarding issues. Some of these, and our approach are explained here:

Child criminal exploitation (CCE) and Child Sexual Exploitation (CSE)

Both CCE and CSE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Child Sexual Exploitation (CSE) is a form of child abuse, which can happen to boys and girls from any background or community. It may occur over time, or be a one-off occurrence. In Southend, the definition of Child Sexual Exploitation (CSE) from the Department of Education (DfE, 2017) has been adopted:

"Child Sexual Exploitation is a form of child sexual abuse. It occurs when an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology".

We recognise that a significant number of children who are victims of CSE go missing from home, care and education at some point. Our school is alert to the signs and indicators of a child becoming at risk of, or subject to, CSE and will take appropriate action to respond to any concerns. The designated safeguarding lead will lead on these issues and work with other agencies as appropriate.

Child on child abuse (including sexualised behaviours)

Child on child abuse can manifest itself in many ways. This may include bullying (including cyber bullying), physical abuse, harmful sexual behaviours, gender-related abuse, 'up-skirting', 'sexting' or initiation / hazing type violence and rituals. We do not tolerate harmful behaviour of any kind in our school and will take swift action to intervene where this occurs, to challenge inappropriate behaviours when they occur. We do not normalise abuse, and it is not tolerated in our setting. Our culture is very much one of respect, kindness, compassion, hope, connection and belonging.

Any incidents of child on child abuse will be managed in the same way as any other child protection concern and we will follow the same procedures. We will seek advice and support from other agencies as necessary and ensure that appropriate agencies are involved when required.

Our school recognises that some children may abuse other children and that this may happen in school, or outside of it. We understand there are many factors which may lead a child to display abusive behaviours towards other children, and that these matters are sensitive and often complex. We recognise our school may be the only stable, secure and safe element in the lives of some children, particularly those who have experienced harm and trauma. We have a duty to safeguard all children and, whilst inappropriate behaviours will be challenged and addressed, it is the context of providing appropriate support to all children in our school where harmful behaviour has occurred. We will, at all times, take a balanced and proportionate approach to risky or harmful behaviour.

We understand the barriers which may prevent a child from reporting abuse and work actively to remove these. We use lessons and assemblies to teach children about healthy, positive relationships, how to report concerns, and to help them understand, in an age-appropriate way, what abuse is. We aim to provide children with the language to report abuse and to tell a trusted adult if someone is behaving in a way that makes them feel uncomfortable. We will never make a child feel ashamed for reporting abuse, nor that they are creating a problem by doing so. We never assume, if abuse is not being reported, that it is not occurring in our school – we are vigilant to signs of abuse and promote a culture of safety and understanding. Our Behaviour policy and Anti-Bullying Policy are also relevant when dealing with child on child abuse.

Children missing from education

All children, regardless of their age, ability, aptitude and any special education needs they may have, are entitled to a full-time education. Our school recognises that a child missing education is a potential indicator of abuse or neglect and we follow the procedures for unauthorised absence and for children missing education. It is also recognised that, when not in school, children may be vulnerable to or exposed to other risks, so we work with parents/carers and other partners to keep children in school whenever possible. Parents are required to provide at least two emergency contact numbers to the school, to enable us to communicate with someone if we need to.

Parents should always inform us of the reason for any absence. Where contact is not made, a referral may be made to another appropriate agency (Children missing education (CME) Team (SCC), Social Care or Police).

Our school must inform the local authority of any pupil who has been absent without school permission for a continuous period of 10 days or more.

We work in accordance with the Southend Protocol for children who go missing during the school day to ensure that there is an appropriate response to children who go missing. Further guidance can be found on the [Southend Learning Network](#).

Contextual safeguarding and risk in the community

We understand that safeguarding incidents and behaviours can be associated with factors outside our school. All staff are aware of contextual safeguarding and we are therefore mindful of whether wider environmental factors present in a child's life are a threat to their safety and/or welfare.

We always consider relevant information when assessing any risk to a child and will share it with other agencies when appropriate to support better understanding of a child and their family. This is to ensure that our children and families receive the right help at the right time.

Domestic abuse

Domestic abuse can involve a wide range of behaviours and can include intimate partner violence, abuse by family members, teenage relationship abuse and child to parent abuse. We understand that anyone can be a victim of domestic abuse, and that it can take place inside or outside of the home.

Our school recognises that exposure to domestic abuse (either by witnessing or experiencing it) can have a serious, long-term emotional and psychological impact on children. We work with other key partners and we receive/share relevant information where there are concerns that domestic abuse may be an issue for a child or family or be placing a child at risk of harm.

Harmful sexual behaviour

We understand that children's sexual behaviours exist on a continuum, ranging from age-appropriate / developmental to inappropriate / problematic / abusive. We also understand

that harmful sexual behaviour and child on child abuse can occur between children of any age and gender, either in person or online. We recognise that children who display harmful sexual behaviour may have experienced their own abuse and trauma, and we will support them accordingly.

Our school has a 'zero-tolerance' approach to harmful sexual behaviour of any kind, and any inappropriate behaviour is challenged and addressed. We work in accordance with all statutory guidance in relation to such behaviours and with other agencies as appropriate.

We seek to teach our pupils about healthy and respectful relationships, boundaries and consent, equality, the law and how to keep themselves safe (on and offline).

Please also refer to our Relationship and Health Education Policy (including preparation for life).

Mental health

Positive mental health is the concern of the whole community and we recognise that our school plays a key part in this. Our school aims to develop the emotional wellbeing and resilience of all pupils and staff, as well as provide specific support for those with additional needs. We understand that there are risk factors which increase someone's vulnerability and protective factors that can promote or strengthen resiliency. The more risk factors present in someone's life, the more protective factors or supportive interventions are required to counter-balance these to promote resilience and keep children safe.

Our staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. We understand that, where children have suffered abuse or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. Where we have concerns this may impact on mental health, we will seek advice and work with other agencies as appropriate to support a child and ensure they receive the help they need.

It is vital that we work in partnership with parents/carers to support the wellbeing of our pupils. We expect parents/carers, if they have any concerns about the wellbeing of their child, to share this with us, so we can ensure that appropriate support and interventions can be identified and implemented.

Online safety

We recognise that our children are growing up in an increasingly complex world, living their lives on and offline. Whilst this presents many positive and exciting opportunities, we recognise it also presents challenges and risks, in the form of:

- content:** being exposed to illegal, inappropriate or harmful material; for example pornography, fake news, suicide, racist or radical and extremist views;
- contact:** being subjected to harmful online interaction with other users; for example peer to peer pressure, commercial advertising as well as adults posing as children or

young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes;

- ❑ **conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for example making, sending and receiving explicit images, or online bullying
- ❑ **commerce:** risks such as online gambling, inappropriate advertising, phishing and / or financial scams

All staff in our school are aware of the risks to children online. We understand any child can be vulnerable online, and that their vulnerability can vary according to age, developmental stage and personal circumstances. We aim to equip all our pupils with the knowledge they need to use the internet and technology safely, and we want to work with parents to support them to keep their children safe online.

We have systems in school to filter information and block internet access to harmful sites and inappropriate content. These systems are monitored and regularly reviewed to ensure they are effective, and all staff are trained in online safety and how to report concerns.

Prevention of radicalisation

As of July 2015, the Counter-Terrorism and Security Act (HMG, 2015) placed a new duty on schools and other education providers. Under section 26 of the Act, schools are required, in the exercise of their functions, to have “due regard to the need to prevent people from being drawn into terrorism”. This duty is known as the Prevent duty.

The Prevent Duty requires schools to:

- teach a broad and balanced curriculum which promotes spiritual, moral, cultural, mental and physical development of pupils and prepares them for the opportunities, responsibilities and experiences of life and must promote community cohesion
- be safe spaces in which children / young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas
- be mindful of their existing duties to forbid political indoctrination and secure a balanced presentation of political issues

Channel is a national programme which focuses on providing support at an early stage to people identified as vulnerable to being drawn into terrorism. If a child on roll at our school, is referred to the Channel Panel, a representative from the school may be asked to attend the Channel Panel to help with an assessment and support plan.

Our school operates in accordance with local procedures for PREVENT and with other agencies, sharing information and concerns as appropriate. Where we have concerns about extremism or radicalisation, we will seek advice from appropriate agencies and, if necessary, refer to the Police, Social Care and / or the Channel Panel.

Serious violence

All staff are aware of indicators which may signal that children are at risk from or involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that a child has been approached by, or is involved with, individuals associated with criminal networks or gangs.

So-called 'honour-based violence' (including Female Genital Mutilation and forced marriage)

So-called 'honour'-based abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. We understand that this form of abuse often involves a wider network of family or community pressure and can include multiple perpetrators.

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to female genital organs. It is illegal in the UK and a form of child abuse.

As of October 2015, the Serious Crime Act 2015 (Home Office, 2015) introduced a duty on teachers (and other professionals) to notify the police of known cases of FGM where it appears to have been carried out on a girl under the age of 18. Our school operates in accordance with the statutory requirements relating to this issue, and in line with local safeguarding procedures.

A *forced marriage* is one entered into without the full consent of one or both parties. It is where violence, threats or other forms of coercion is used and is a crime. Our staff understand how to report concerns where this may be an issue.

5. Procedures

Our school works with key local partners to promote the welfare of children and protect them from harm. This includes providing a co-ordinated offer of early help when additional needs of children are identified and contributing to inter-agency plans which provide additional support (through a Child in Need or a Child Protection plan).

All staff members have a duty to identify and respond to suspected / actual abuse or disclosures of abuse. Any member of staff, volunteer or visitor to the school who receives a disclosure or allegation of abuse, or suspects that abuse may have occurred **must** report it immediately to the designated safeguarding lead (or, in their absence, the deputy designated safeguarding lead).

All action is taken in accordance with the following guidance:

- Southend Children's Safeguarding Partnership guidelines - the SET (Southend, Essex and Thurrock) Child Protection Procedures
- Keeping Children Safe in Education (DfE, 2023)
- Working Together to Safeguard Children (DfE, 2018)
- What to do if you're worried a child is being abused (HMG, 2015)
- PREVENT Duty - Counter-Terrorism and Security Act (HMG, 2015)

Any staff member or visitor to the school must refer any concerns to the designated safeguarding lead or deputy designated safeguarding lead.

Where there is risk of immediate harm, concerns should be referred by telephone to the Children's Single Point of Contact team (C-SPOC) ON 01702-215007 OPTION 1 and / or the Police. All telephone referrals should be followed up by completing the C-SPOC request for Service form. This form needs to be sent to the following email address: C-SPOC@southend.gov.uk. All C-SPOC request for service for social care will be reviewed with 24 hours.

We may also seek advice from Social Care or another appropriate agency about a concern if we are unsure how to respond to it. Wherever possible, we will share any safeguarding concerns, or an intention to refer a child to another agency, with parents or carers. However, we will not do so where it is felt that to do so could place a child at greater risk of harm or impede a criminal investigation. If it is necessary for an external agency to meet with a child in school, we will always seek to inform parents or carers, unless we are advised not to by that agency. On occasions, it may be necessary to consult with the C-SPOC team or Essex Police for advice on when to share information with parents / carers.

All staff understand that, if they continue to have concerns about a child, feel a concern is not being addressed or that a situation does not appear to be improving for a child, they should raise this with the Designated Safeguarding Lead.

Where an immediate response is required and if, for any reason, the designated safeguarding lead (or deputy) is not immediately available, this will not delay any appropriate action being taken. Safeguarding contact details are displayed in the school to ensure that all staff members have access to urgent safeguarding support, should it be required. Any individual may refer to Social Care where there is suspected or actual risk of harm to a child.

When new staff, volunteers or regular visitors join our school they are informed of the safeguarding arrangements in place, the name of the designated safeguarding lead (and deputies) and how to share concerns with them. We also provide information on safeguarding to any visitor to our school, so they understand how to report a concern if they have one.

6. Children potentially at risk of greater harm

We recognise that some children may potentially be at risk of greater harm and require additional help and support. These may be children with a Child in Need or Child Protection Plan, those in Care or previously in Care or those requiring mental health support. We work with Social Care and other appropriate agencies to ensure there is a joined-up approach to planning for these children and that they receive the right help at the right time.

Our school understands that children with special educational needs (SEN) and/or disabilities can face additional safeguarding challenges. Barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability, without further exploration
- That they may be more prone to peer group isolation than others
- The potential to be disproportionately impacted by things like bullying, without outwardly showing signs
- Communication difficulties in overcoming these barriers

7. Training

In line with statutory requirements, the designated safeguarding lead (and deputies) undertake Level 3 child protection training at least every two years. The Headteacher, all staff members and governors receive appropriate child protection training which is regularly updated and in line with advice from the Southend Safeguarding Children Board. In addition, all staff members and other adults working with children in our school receive safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. Records of any safeguarding/child protection training undertaken are kept for all staff and governors.

The school ensures that the designated safeguarding lead (and deputies) also undertakes training in inter-agency working and other matters as appropriate.

Information sharing and confidentiality

Sharing information is a key part of safeguarding work and decisions about how much information to share, with whom and when, can have a profound impact on a child's life.

Where there are concerns about the safety of a child, the sharing of information in a timely and effective manner between organisations can reduce the risk of harm. Whilst the Data Protection Act 2018 places duties on organisations and individuals to process personal information fairly and lawfully, it is not a barrier to sharing information, where the failure to do so would result in a child or vulnerable adult being placed at risk of harm. Similarly, human rights concerns, such as respecting the right to a private and family life, would not prevent sharing information where there are real safeguarding concerns. Fears about sharing information cannot be (and will not) stand in the way of the need to safeguard and promote the welfare of children at risk of abuse or neglect. Generic data flows related to child protection are recorded in our Records of Processing Activity and are regularly reviewed; and our online school privacy notices accurately reflect our use of data for child protection purposes.

A member of staff will never guarantee confidentiality to anyone (including parents/carers or pupils) about a safeguarding concern, nor promise to keep a secret. In accordance with statutory requirements, where there is a child protection concern, this must be reported to the

designated safeguarding lead and may require further referral to and subsequent investigation by appropriate authorities.

In some cases, it may be necessary for the designated Safeguarding Lead (and deputies) to share information on an individual child protection cases with other relevant staff members. This will be on a “need to know” basis only and where it is in the child’s best interest to do so.

Information on individual child protection cases may be shared by the designated safeguarding lead (or deputies) with other relevant staff members. This will be on a ‘need to know’ basis only and where it is in the child’s best interests to do so.

Information sharing can help to ensure that a child receives the right help at the right time and can prevent a concern from becoming more serious and difficult to address.

9. Child protection records

Well-kept records are an essential aspect of effective child protection practice. Our school is clear about the need to record any concern held about a child or children within our school and when these records should be shared with other agencies.

Any member of staff receiving a disclosure of abuse or noticing signs or indicators of abuse, will record it as soon as possible, using our CPOMS software, noting what was said or seen (if appropriate, using a body map to record), giving the date, time and location. All records are automatically dated and signed and will include the action taken. This is then presented to the Designated Safeguarding Lead (or deputies), who will decide on appropriate action and record this accordingly.

Any records relating to child protection are kept on an individual child protection file within our CPOMS software for that child (which is separate to the pupil file). Any historic records (prior to the introduction of CPOMS or from other schools) are still kept in the locked cupboard in the Headteacher’s office.

All child protection records are stored securely and confidentially and will be retained for 25 years after the pupil’s date of birth, or until they transfer to another school / educational setting.

In line with statutory guidance, where a pupil transfers from our school to another school / educational setting their child protection records will be forwarded to the new setting. These will be marked ‘Confidential’ and for the attention of the receiving school’s designated safeguarding lead, with a return address on the envelope so it can be returned to us if it goes astray. We will obtain evidence that the paperwork has been received by the new school and then destroy any copies held in our school. Where appropriate, the designated safeguarding lead may also make contact with the new setting in advance of the child’s move there, to enable planning so appropriate support is in place when the child arrives.

Where a pupil joins our school, we will request child protection records from the previous educational establishment (if none are received).

10. Interagency working

It is important that agencies work together to keep children safe, and there is a legal requirement to do so.

We work with other relevant agencies, including where a child on roll (or previously known to us) has a Child in Need, Child Protection or Care plan. Where this is the case, it is the responsibility of the Designated Safeguarding Lead to ensure our school is represented at, and that a report is submitted to, any statutory meeting called. Where possible and appropriate, any report will be shared in advance with the parent(s)/carer(s). The member of staff attending the meeting will be fully briefed on any issues or concerns the school has and be prepared to contribute to the discussions.

If a child is subject to a Care, Child Protection or a Child in Need plan, the designated safeguarding lead will have oversight of their school attendance, emotional well-being, academic progress, welfare and presentation. Where the school is part of the core group, the designated Safeguarding Lead will ensure we are represented, provide appropriate information and contribute to the plan at these meetings. We will report on the child's progress in school, and any concerns about them will be shared at the meeting, unless to do so would place them at risk of harm. In this case the designated Safeguarding Lead would speak with the child's key worker outside of the meeting, and as soon as there is a concern.

11. Allegations about members of the workforce

All staff members are made aware of the boundaries of appropriate behaviour and conduct, and are regularly reminded of this. These matters form part of staff induction and are outlined in the Staff Code of Conduct. Our school works in accordance with statutory guidance and the SET procedures in respect of allegations against an adult working with children (in a paid or voluntary capacity).

The school has processes in place for reporting any concerns about a member of staff (or any adult working with children). Any concerns about the conduct of a member of staff must be referred to the Headteacher (or 1 of the Assistant Headteachers in their absence), as they have responsibility for managing employment issues. Where the allegation concerns an agency member of staff, the Headteacher (or AHTs) will liaise with the agency, while following due process.

Where the concern involves the headteacher, it should be reported direct to the Chair of Governors.

The SET procedures require that, where an allegation against a member of staff is received, the Headteacher, senior named person or the Chair of Governors must inform the duty Local Authority Designated Officer (LADO) within one working day. However, wherever possible, contact with the LADO will be made immediately so we can seek advice on how to proceed and whether the matter requires Police involvement. This will include advice on speaking to pupils and parents and HR. The school does not carry out any investigation before speaking to the LADO.

Staffing matters are confidential and the school operates within a statutory framework around Data Protection.

12. Behaviour, use of physical intervention and reasonable force

Our Behaviour Policy sets out our approach to behaviour for all children and also for those with more difficult or harmful behaviour. We recognise there are some children who have needs that require additional support and a more personalised approach and we always consider all behaviour, and our response to it, in the context of safeguarding.

There are occasions when staff will have cause to have physical contact with children and young people for a variety of reasons, this may include:

- to comfort a child or young person in distress (*appropriate to their age and individual specific needs identified through a risk assessment*);
- to direct a child or young person;
- for curricular reasons (*for example in PE, Music, Drama etc*);
- in an emergency, to avert danger to the child or young person or others;

The guidance produced by the Department for Education Use of Reasonable Force (DfE, 2013) states that:

*“Schools **should not** have a ‘no contact’ policy. There is a real risk that such a policy might place a member of staff in breach of their duty of care towards a child or young person or prevent them taking action needed to prevent a child or young person causing harm.”*

The term ‘reasonable force’ covers a broad range of actions used by staff that involve a degree of physical contact to control or restrain children. There are circumstances when it is appropriate for staff to use reasonable force to safeguard children and young people, such as guiding a child to safety or breaking up a fight. ‘Reasonable’ means using no more force than is needed. Our school works in accordance with statutory and local guidance on the use of reasonable force (see *section 2*) and recognises that where intervention is required, it should always be considered in a safeguarding context.

13. Whistleblowing

All members of staff and the wider school community should be able to raise concerns about poor or unsafe practice and feel confident any concern will be taken seriously by the school leadership team. We have ‘whistleblowing’ procedures in place and these are available in the school Whistleblowing Policy. However, for any member of staff who feels unable to raise concerns internally, or where they feel their concerns have not been addressed, they may contact the NSPCC whistleblowing helpline on: 0800 028 0285 (line is available from 8:00 AM to 8:00 PM, Monday to Friday) or by email at: help@nspcc.org.uk.

Parents or others in the wider school community with concerns can contact the NSPCC general helpline on: 0808 800 5000 (24 hour helpline) or email: help@nspcc.org.uk.

Acknowledgement:

We acknowledge the Essex County Council model Child Protection Policy which contributed to the development of this model policy.

Model Policy Revised: September 2023

APPENDIX A

SIGNS OF ABUSE IN CHILDREN:

The following non-specific signs may indicate something is wrong:

- Significant change in behaviour
- Extreme anger or sadness
- Aggressive and attention-seeking behaviour
- Suspicious bruises with unsatisfactory explanations
- Lack of self-esteem
- Self-injury
- Depression
- Age inappropriate sexual behaviour
- Child Sexual Exploitation.

RISK INDICATORS

The factors described in this section are frequently found in cases of child abuse. Their presence is not proof that abuse has occurred, but:

- Must be regarded as indicators of the possibility of significant harm
- Justifies the need for careful assessment and discussion with designated / named / lead person, manager, (or in the absence of all those individuals, an experienced colleague)
- May require consultation with and / or referral to the C-SPOC Team.

The absence of such indicators does not mean that abuse or neglect has not occurred.

In an abusive relationship the child may:

- Appear frightened of the parent/Carers
- Act in a way that is inappropriate to her/his age and development (though full account needs to be taken of different patterns of development and different ethnic groups)

The parent or carer may:

- Persistently avoid child health promotion services and treatment of the child's episodic illnesses
- Have unrealistic expectations of the child
- Frequently complain about/to the child and may fail to provide attention or praise (high criticism/low warmth environment)
- Be absent or misusing substances
- Persistently refuse to allow access on home visits
- Be involved in domestic abuse

Staff should be aware of the potential risk to children when individuals, previously known or suspected to have abused children, move into the household.

RECOGNISING PHYSICAL ABUSE

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces illness in a child.

The following are often regarded as indicators of concern:

- An explanation which is inconsistent with an injury
- Several different explanations provided for an injury
- Unexplained delay in seeking treatment
- The parents/carers are uninterested or undisturbed by an accident or injury
- Parents are absent without good reason when their child is presented for treatment
- Repeated presentation of minor injuries (which may represent a “cry for help” and if ignored could lead to a more serious injury)
- Family use of different doctors and A&E departments
- Reluctance to give information or mention previous injuries

Bruising

Children can have accidental bruising, but the following must be considered as non-accidental unless there is evidence or an adequate explanation provided:

- Any bruising to a pre-crawling or pre-walking baby
- Bruising in or around the mouth, particularly in small babies which may indicate force feeding
- Two simultaneous bruised eyes, without bruising to the forehead, (rarely accidental, though a single bruised eye can be accidental or abusive)
- Repeated or multiple bruising on the head or on sites unlikely to be injured accidentally
- Variation in colour possibly indicating injuries caused at different times
- The outline of an object used e.g. belt marks, hand prints or a hair brush
- Bruising or tears around, or behind, the earlobe/s indicating injury by pulling or twisting
- Bruising around the face
- Grasp marks on small children
- Bruising on the arms, buttocks and thighs may be an indicator of sexual abuse

Bite Marks

Bite marks can leave clear impressions of the teeth. Human bite marks are oval or crescent shaped. Those over 3 cm in diameter are more likely to have been caused by an adult or older child.

A medical opinion should be sought where there is any doubt over the origin of the bite.

Burns and Scalds

It can be difficult to distinguish between accidental and non-accidental burns and scalds, and will always require experienced medical opinion. Any burn with a clear outline may be suspicious e.g.:

- Circular burns from cigarettes (but may be friction burns if along the bony protuberance of the spine)

- Linear burns from hot metal rods or electrical fire elements
- Burns of uniform depth over a large area
- Scalds that have a line indicating immersion or poured liquid (a child getting into hot water on his/her own accord will struggle to get out and cause splash marks)
- Old scars indicating previous burns/scalds which did not have appropriate treatment or adequate explanation

Scalds to the buttocks of a small child, particularly in the absence of burns to the feet, are indicative of dipping into a hot liquid or bath.

Fractures

Fractures may cause pain, swelling and discolouration over a bone or joint.

Non-mobile children rarely sustain fractures.

There are grounds for concern if:

- The history provided is vague, non-existent or inconsistent with the fracture type
- There are associated old fractures
- Medical attention is sought after a period of delay when the fracture has caused symptoms such as swelling, pain or loss of movement
- There is an unexplained fracture in the first year of life

Scars

A large number of scars or scars of different sizes or ages, or on different parts of the body, may suggest abuse.

RECOGNISING EMOTIONAL ABUSE

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or "making fun" of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children.

These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social intervention.

It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Emotional abuse may be difficult to recognise, as the signs are usually behavioural rather than physical. The manifestations of emotional abuse might also indicate the presence of other kinds of abuse.

The indicators of emotional abuse are often also associated with other forms of abuse.

The following may be indicators of emotional abuse:

- Developmental delay
- Abnormal attachment between a child and parent/carer e.g. anxious, indiscriminate or no attachment
- Indiscriminate attachment or failure to attach
- Aggressive behaviour towards others
- Scape-goated within the family
- Frozen watchfulness, particularly in pre-school children
- Low self esteem and lack of confidence
- Withdrawn or seen as a “loner” – difficulty relating to others

RECOGNISING SIGNS OF SEXUAL ABUSE

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (e.g. rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing.

They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Boys and girls of all ages may be sexually abused and are frequently scared to say anything due to guilt and/or fear. This is particularly difficult for a child to talk about and full account should be taken of the cultural sensitivities of any individual child/family.

Recognition can be difficult, unless the child discloses and is believed. There may be no physical signs and indications are likely to be emotional/behavioural.

Some behavioural indicators associated with this form of abuse are:

- Inappropriate sexualised conduct
- Sexually explicit behaviour, play or conversation, inappropriate to the child's age
- Continual and inappropriate or excessive masturbation
- Self-harm (including eating disorder), self mutilation and suicide attempts
- Involvement in prostitution or indiscriminate choice of sexual partners
- An anxious unwillingness to remove clothes e.g. for sports events (but this may be related to cultural norms or physical difficulties)

Some physical indicators associated with this form of abuse are:

- Pain or itching of genital area
- Blood on underclothes
- Pregnancy in a younger girl where the identity of the father is not disclosed

- Physical symptoms such as injuries to the genital or anal area, bruising to buttocks, abdomen and thighs, sexually transmitted disease, presence of semen on vagina, anus, external genitalia or clothing

Sexual Abuse by Young People

The boundary between what is abusive and what is part of normal childhood or youthful experimentation can be blurred. The determination of whether behaviour is developmental, inappropriate or abusive will hinge around the related concepts of true consent, power imbalance and exploitation.

This may include children and young people who exhibit a range of sexually problematic behaviour such as indecent exposure, obscene telephone calls, fetishism, bestiality and sexual abuse against adults, peers or children.

Developmental Sexual Activity encompasses those actions that are to be expected from children and young people as they move from infancy through to an adult understanding of their physical, emotional and behavioural relationships with each other. Such sexual activity is essentially information gathering and experience testing. It is characterised by mutuality and of the seeking of consent.

Inappropriate Sexual Behaviour can be inappropriate socially, inappropriate to development, or both. In considering whether behaviour fits into this category, it is important to consider what negative effects it has on any of the parties involved and what concerns it raises about a child or young person. It should be recognised that some actions may be motivated by information seeking, but still cause significant upset, confusion, worry, physical damage, etc. It may also be that the behaviour is “acting out” which may derive from other sexual situations to which the child or young person has been exposed.

If an act appears to have been inappropriate, there may still be a need for some form of behaviour management or intervention. For some children, educative inputs may be enough to address the behaviour.

Abusive sexual activity included any behaviour involving coercion, threats, aggression together with secrecy, or where one participant relies on an unequal power base.

RECOGNISING NEGLECT

Neglect is the persistent failure to meet a child’s basic physical and /or psychological needs, likely to result in the serious impairment of the child’s health or development. Neglect may also occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to provide adequate food and clothing, shelter including exclusion from home or abandonment, failing to protect a child from physical harm and emotional harm or danger, failure to ensure adequate supervision including the use of inadequate caretakers, or the failure to ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child’s basic emotional needs.

Evidence of neglect is built up over a period of time and can cover different aspects of parenting. Indicators include:

- Failure by parents or carers to meet the basic essential needs e.g. adequate food, clothes, warmth, hygiene and medical care
- A child seen to be listless, apathetic and irresponsible with no apparent medical cause
- Failure of child to grow within normal expected pattern, with accompanying weight loss
- Child thrives away from home environment
- Child frequently absent from school
- Child left with adults who are intoxicated or violent
- Child abandoned or left alone for excessive periods

Child Sexual Exploitation

The following list of indicators is not exhaustive or definitive but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual exploitation.

Signs include:

- underage sexual activity
- inappropriate sexual or sexualised behaviour
- sexually risky behaviour
- repeat sexually transmitted infections
- in girls, repeat pregnancy, abortions, miscarriage
- receiving unexplained gifts or gifts from unknown sources
- having multiple mobile phones and worrying about losing contact via mobile
- having unaffordable new things (clothes, mobile) or expensive habits (alcohol, drugs)
- changes in the way they dress
- going to hotels or other unusual locations to meet friends
- seen at known places of concern
- moving around the country, appearing in new towns or cities, not knowing where they are
- getting in/out of different cars driven by unknown adults
- having older boyfriends or girlfriends
- contact with known perpetrators
- involved in abusive relationships, intimidated and fearful of certain people or situations
- hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- associating with other young people involved in sexual exploitation
- recruiting other young people to exploitative situations
- truancy, exclusion, disengagement with school, opting out of education altogether
- unexplained changes in behaviour or personality (chaotic, aggressive, sexual)
- mood swings, volatile behaviour, emotional distress
- self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- drug or alcohol misuse
- getting involved in crime
- police involvement, police records
- involved in gangs, gang fights, gang membership
- injuries from physical assault, physical restraint, sexual assault.

LEARN THE UNDERWEAR RULE

TALK PANTS AND YOU'VE GOT IT COVERED!

P RIVATES ARE PRIVATE

Parts of your body covered by underwear are private. No one should ask to see, or touch them. Sometimes doctors, nurses or family members might have to. But they should always explain why, and ask if it's OK first. No one should ask you to touch or look at parts of their body that are covered by underwear.

A LWAYS REMEMBER YOUR BODY BELONGS TO YOU

It's your body, no one else's. No one should make you do things that make you feel embarrassed or uncomfortable. If anyone tries, tell an adult you trust.

N O MEANS NO

You have the right to say 'no' – even to a family member or someone you love. Remember, you're in control of your body and your feelings are important.

T ALK ABOUT SECRETS THAT UPSET YOU

Secrets shouldn't make you feel upset or worried. If they do, tell an adult you trust. You will never get into trouble for sharing a secret that upsets you.

S PEAK UP, SOMEONE CAN HELP

Talk about stuff that makes you worried or upset. An adult you trust will listen, and be able to help. It doesn't have to be a family member. It can be a teacher or a friend's parent – or even ChildLine.
