### MYTH #1 "EVERYONE'S A LITTLE AUTISTIC"

**FALSE** - Everyone has autistic traits & everyone presents autistically at different times to a certain extent. But you are only autistic if your brain is built in that way.

### MYTH #2 "AUTISM IS A MENTAL HEALTH CONDITION"

**FALSE** - Autism is a cognitive difference between people. It should not be viewed as flawed or problematic & does not need to be treated. It is simply a difference.

### MYTH #3 "AUTISM MAINLY AFFECTS YOUNG CHILDREN"

**FALSE** - People are autistic all of their lives.

### MYTH #4 "ALL AUTISTIC PEOPLE HAVE LEARNING DIFFICULTIES"

Week 3 of **Science club** consisted of making a non-newtonian fluid. The scientists experimented with cornflour and water to make slime. When energy was imparted onto the slime, it became a solid but when left alone, it suddenly acted as a liquid.

A good video to watch of this in action is <https://www.youtube.com/watch?v=Iz9KnPZWOGs>

**6A** had a very enjoyable and exciting time at the library! We love that the library is free to join and they have audio books and games that you can play!

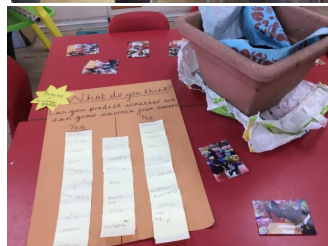

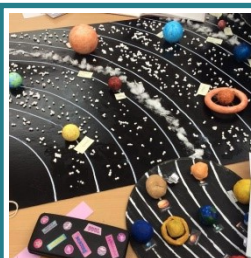

On Monday, **3 Robins** went to Southend Library (also known as the Forum) to learn about all the wonderful books full of fantastic stories for them all! Can they tell you how many books are at Southend Library (over 700,000) or how many books they can take out a time? (14) Can they tell you how to help them find their favourite books and authors if the book isn't on the shelf? (Go to the Information Desk.) The students were especially excited to find books in other languages like Portuguese and Polish. We had a wonderful time. Each child should have come home with a slip to fill out to get a library card. Big thanks to our parent helper's: Elijah's mum, Nashe's mum, Aakifa's mum and Liliana's dad! We couldn't have done it without you!
