St Helen's Catholic Primary School Local Offer for Children with Special educational Needs or Disabilities (SEND)

At St Helen's we value the individual abilities and needs of every child. We believe that every child has a right to a broad, balanced and relevant education within our Catholic

ethos. Some pupils will permanently or from time to time have specific difficulties which require intervention. These pupils will be given provision in line with our Inclusion policy to ensure their needs are met. This document is intended to outline the ways in which we support all of our pupils, including those with SEN, to ensure they reach their full potential.

Area of need		Universal Provision (High Quality Teaching for all)	Targeted and or Specialist Provision (This may involve the completion of an Early Help Assessment -EHAform)
