

## Topic: Earth and Space

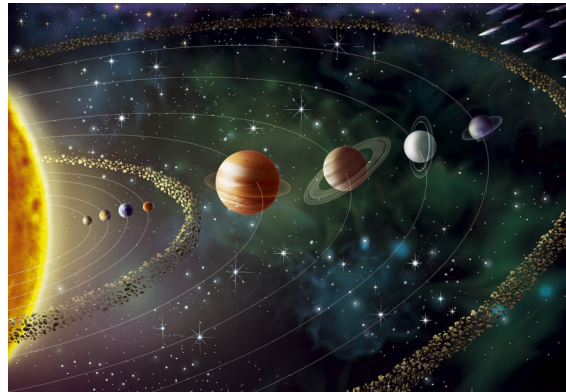

Complete **5** of the homework options.  
This project is to be handed in: 12th February 2024

Write a diary entry of an astronaut in space. Don't forget to describe what you see, what you feel and what you do (such as work, diet and exercise).

Collect data about the distance of the different planets from the Sun. Present this in any way you choose.

Conduct some research about someone who has travelled to the moon. Write a fact file or create a mind map about this person.

Create a model of the solar system. You may use as many materials as you wish. The more detailed, the better!

Write a set of instructions telling an alien how to pretend to be human.

Write a poem to help remind you of the order of the planets.

Design and create your own method of space transport (you cannot use a rocket). Add information which explains your mode of transport.

**Free Choice box.**

Observe the night sky over a few weeks and note down either:

- the changing shape of the moon or;
- Any constellations you see

Create a space-themed piece of art using whichever materials you like. This can be a painting, a drawing or sketch or even a collage.
