

SCIENCE WEEK

Professor
Bubbleworks
inspiring us for a
great science
week.

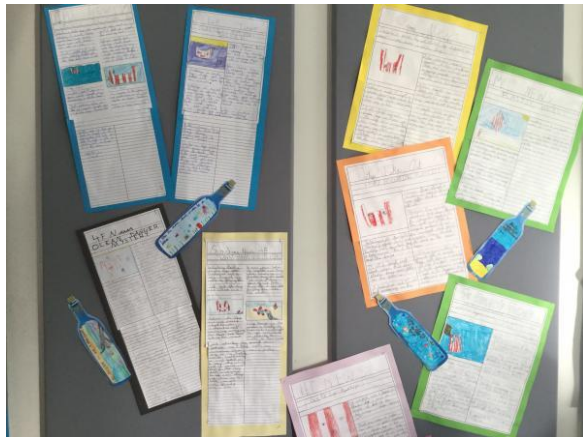

Class 6 attempted to clean dirty water. Ask the children about what filtering material was best - the results shocked us all!

Year 6 had to carry water as people do in Zimbabwe. They completed the daily mile route but found carrying the water hard going and keeping all the water tricky!

Education
is not the learning
of facts, but the
training of the
mind to think!
-Albert Einstein

Experiment.
FAIL.
Learn.
REPEAT.

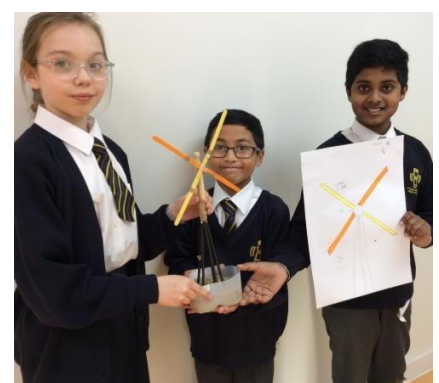

Class 4F have
produced some
amazing work about
our diverse planet.

In light of all our work on Zimbabwe, Year 6 were designing alternative energy sources today including the use of wind turbines. Have a look at the making process and also our finished products!

During Science week Class 3GC have been recycling waste to make themselves a pet. What a wonderful selection!

NOTHING IN LIFE IS TO BE FEARED, IT IS ONLY TO BE UNDERSTOOD.
MARIE CURIE
