

1. Rice crispy box

Length 35cm width 22cm

2. Pasta box

Length 14cm width 7.5cm

3. Noodle pack

Length 19cm width 15cm

4. To get a perimeter of a square This a square it is different to any other shapes because it has equal side length. So to work this out you have to measure one length of the shape but an easier way to say it you have to times it by four.

Perimeter of ;

1. $35\text{cm} + 22\text{cm} = 57$

$$35\text{cm} + 22\text{cm} = 57$$

$$57 + 57 = 114$$

2. $14 + 14 = 28$

$$7.5 + 7.5 = 15$$

$$28 + 15 = 43$$

- 3 $19 + 15 = 34$

$$19 + 15 = 34$$

$$34 + 34 = 68$$
